

# mini-critters

## care sheet

### size

2-3 inches

### lifespan

18-30 months

### active times

Dawn, night, dusk

### diet

Mouse Pellets daily, leafy greens every other day, and special fruits once a week.

### exercise

Mice need a wheel to run in inside of their cage. It is not recommended for mice to be outside of their cages unless in a ball for up to 10 mins. Give them chewing toys to file down their teeth as they are constantly growing.

### maintenance

Spot clean daily, change bedding and wash the cage and toys weekly.
