

mini-critters

care sheet

size

7-9 in

lifespan

10-15 years

active times

Night

diet

crested gecko

gut-loaded crickets with calcium supplement

1-2 times/week, Complete crested diet (in a bottle)

2-3 times/week (feed crickets first, then complete diet to avoid gecko rejecting crickets later)

temperature/lights

Day temp 75-80 degrees,

Night temp 68-75 degrees.

No special UV lighting, but 10-12 hours of fluorescent light every day (keep lights on in the room).

If temp is too cold at night, a red lamp may be required to keep temps up. High humidity lizard.

maintenance

Spot clean enclosure daily (pick up poop and uneaten food) and weekly clean décor, sticks, rocks, enclosure walls, and flooring.

Daily misting is needed for desired humidity

Always wash your hands after handling a reptile
